

RESOLUTION NO. 61-81

BOARD OF SUPERVISORS, NAVAJO COUNTY, ARIZONA

**A RESOLUTION ESTABLISHING UNIFORM STREET WIDTH
IN PINETOP COUNTRY CLUB SUBDIVISIONS**

WHEREAS, the Pinetop Coutry Club Subdivisions were approved prior to the enactment of the present County standards for utility placement and paved roadway width and shoulder width; and

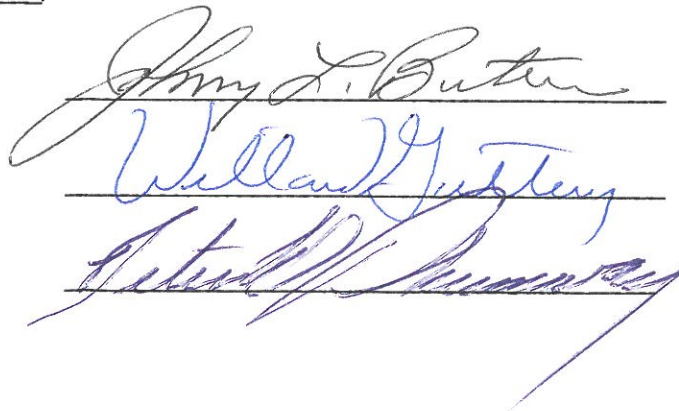

WHEREAS, various property owners within Pinetop Country Club Subdivisions are interested in improving their property through the formation of County Improvement Districts to grade and pave the roads within the Pinetop Country Club Subdivisions; and

WHEREAS, applying the current County standards for paving to the Pinetop Country Club Subdivisions would result in paving of roads wider than those which were originally paved, and would also result in the expensive moving of public utilities in order to accomodate the wider road;

THEREFORE, BE IT RESOLVED THAT:

Within the Pinetop Country Club Subdivisions all new road paving shall be of a minimum width of Twenty feet plus a minimum paved shoulder of Four feet. It is further ordered that the approval of any Plans and Specifications for the paving of any streets in the Pinetop Country Club Subdivisions by the Navajo County Board of Supervisors, acting as the Board of Directors of any County Improvement District, shall constitute a waiver of and variance from the existing Rules and Regulations of the County of Navajo pertaining to street improvements as far as the width of the street and shoulder only. This Resolution shall in no way modify any other portions of the Rules and Regulations of Navajo County pertaining to street construction other than the width of the paved roadway and the width of the paved shoulder.

ADOPTED this 9th day of June, 1981.

The block contains three handwritten signatures in blue ink, each written over a horizontal line. The signatures are cursive and appear to be of the same person or are closely related. The first signature is the most legible, followed by the second, and the third is more stylized and less legible.
